### FEEDING DIRECTIONS

Hand feed continuously at the rate of 17.5 lbs per head per day to provide 218.75 mg Lasalocid and 350 mg Chlortetracycline per head per day. Provide adequate amounts of roughage (pasture or hay). Consult Rowe Nutrition LLC for questions or more specific feeding instructions. For additional feeding instructions contact **ROWE NUTRITION LLC**.

**WARNING:** A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.

**CAUTION:** The safety of Lasalocid in unapproved species has not been established, do not allow horses or other equines access to Lasalocid as ingestion may be fatal: feeing undiluted, mixing errors or inadequate mixing resulting in excessive concentrations of Lasalocid could be fatal to cattle. Contains high level of copper do not feed to sheep or other species sensitive to copper.

### ADDITIONAL RECOMMENDATIONS

- Use **Jackpot .49 B25 CTC40** for steers & heifers for maximum gain and body volume.
- Fresh water should be available at all times.
- Free choice hay should be available at all times. Grass hay is preferred, Alfalfa hay is not recommended.
- If hay is restricted a minimum of 1 flake AM & PM should be fed.
- Provide free choice salt in loose or block form.
- Free choice mineral should be made available if not on full feed.
- Additional fats and oils should not be added to this product.
- **ROWE ENHANCE** is recommended as a top dress but is not mandatory.

### ADDITIONAL NON REQUIRED INGREDIENTS

- Chelated Trace Minerals for increased mineral absorption.
- B-Vitamins.
- Probiotics for increased well being, better metabolism, reduced stress and to maintain healthy and flourishing microorganisms at optimal levels.
- Rumen bypass Amino Acids.
